Summary

Dedicated and goal-oriented B.Tech Computer Science student with strong analytical and problem-solving abilities. Skilled in Java, Data Structures Algorithms, and full-stack web development with hands-on project experience. Quick learner with effective communication and teamwork skills, seeking an opportunity to contribute and grow in a reputed organization through continuous learning and practical application of technical knowledge.

Education

Oriental College of Technology,

Bachelor of Technology in Computer Science and Engineering

2023 – Present

Bhopal, Madhya Pradesh

Technical Skills

Languages:	Java, HTML/CSS, JavaScript
Technologies:	React.js, CSS
Developer Tools:	VS Code, Github
Database:	MySQL
Core Concepts:	OOPs, Data Structures & Algorithms

Work Experience

- Participated in a coding hackathon where I collaborated with a team to develop innovative software solutions, enhancing my problem-solving, teamwork, communication, and development skills under strict time constraints.

Projects

College Event Management System (Minor Project) | [Live Demo](#)

Jan 2026

- Developed a web-based College Event Management System to streamline event organization and participation.
- Designed responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Implemented features such as event creation, user registration, and participant management for efficient coordination.
- Improved user experience by simplifying event workflows and reducing manual efforts.
- Collaborated in a team environment, contributing to development and resolving implementation challenges.

Farmers-To-Consumers (AgriDirect) | [Live Demo](#)

May 2026

- Developed “AgriDirect,” a responsive frontend web application connecting farmers directly with consumers using HTML, CSS, and JavaScript.
- Implemented multilingual support, product marketplace, cart management, and farmer dashboard functionalities to enhance user experience and accessibility.
- Designed interactive and responsive user interfaces for seamless navigation across multiple devices.

Analytical Skills

- Continuously honed problem-solving skills by solving over 70+ coding problems on platforms like LeetCode, GFG.
- Skilled in research and analytical thinking to evaluate information and develop effective solutions.

Achievements & Certifications

- Participated in Oriental Tech Hack 2.0, a national-level hackathon, demonstrating teamwork, problem-solving, and software development skills in a competitive environment..
